

Special Gates for Special Environments

Lightweight Aluminum and Stainless Steel Safety Gates for Heavy Duty Applications

As the world's leading manufacturer of industrial self-closing safety gates, FabEnCo offers a full range of OSHA-required safety gates that fit unprotected openings up to 60 inches on ladders, platforms, stairs and mezzanines. Custom gates are also available.

Lightweight aluminum and stainless steel FabEnCo Self-Closing Safety Gates are easy to install and offer a number of advantages:

- Fire, Heat and Spark Resistance
- Corrosion Resistance
- Exceptional Strength to Weight Ratio
- Impact Resistance
- Easy Cleaning for Hygiene Conditions
