

Protecting Your Products... Important.

Protecting Your People... More Important.

*Aluminum and Stainless Steel
Self-Closing Safety Gates are
available for clean environments*

Is fall protection a priority at your plant? It should be.

As the world's largest manufacturer of self-closing industrial safety gates, FabEnCo can help you eliminate the time and expense of fabricating gates that provide fall protection as required by OSHA at ladder, platform, mezzanine and stair openings.

- **Easy to Install:** no cutting, welding or drilling
- **Adaptable:** mounts on all types of handrails
- **Stainless Steel Spring:** returns gate after each passage
- **Positive Stop:** positive stop without handrail contact
